OVERVIEW

Own *INDX* to receive a regular passive income from a Masternode, Staking and DPoS portfolio, forecasting 44% annual returns.. An award-winning, VC-led, asset-backed and regulatory-compliant STO, fully tradable on exchanges, giving investors liquidity with zero exit fees. Launching July 1st, 2019, in association with Swarm. *INDX* token holders receive a Qtrly Dividend of 50% net yield from our portfolio. The remaining 50% is reinvested back into the fund to grow the token value on exchanges. For an independent audit, please read the due diligence report published by VC Iconic Lab [here](#).

MASTERNODES & POS

In simple terms, Proof Of Stake (POS) can be viewed as the next generation of crypto mining. Once set up they generate reliable and regular passive income which we distribute to our token holders. By simply holding the *INDX* token, token holders gain significant exposure to the yield of a diverse portfolio across three asset classes: Masternodes, Staking, DPoS. Such yield is otherwise very difficult to obtain due to the capital-intensive nature and the technological & financial expertise required for the selection, hosting, and staking of nodes in such a portfolio. INDX TOKEN

A risk-managed portfolio of Masternodes, Staking and DPoS. The *INDX* algorithm scans the market & selects an outperformance basket. The *INDX* platform securely spins up and stakes the yielding assets and distributes the profits to our token holders. The *INDX* hedge helps protect against any market depreciation. The *INDX* Dashboard keeps you up-to-date on your investment. The *INDX* trial portfolio is achieving yields circa 44%.

Public Token Sale

Starting July 1st qualified investors can purchase the *INDX* token by visiting [our website](#). A small number of non-qualified investors will also be accepted.
